## AGENT TO THE GOVERNOR GENERAL IN CENTRAL INDIA.

## NOTIFICATION.

Central India Agency, Indore, the 23rd August 1909.

**No. 1986-D**—In exercise of the powers conferred by Notification No. 1421-I.A. dated the 15th April 1897, of the Government of India in the Foreign Department, the Agent to the Governor General in Central India issues the following revised rules under section 2, sub-section (1), of the Epidemic Diseases Act, 1897:—

## RULES RELATING TO THE CANTONMENTS OF MHOW, NIMACH AND NOWGONG.

1. If in any house a person becomes ill or dies of a disease which is known or suspected to be plague, the owner of such house, or if the owner be non-resident, the occupier and every head of a family resident therein, shall forthwith report the occurrence of such illness or death at the nearest police station.

2. If there is, or has been, resident in any house a person who has come from any place in which plague is prevalent, the owner of such house, or if the owner be non-resident, the occupier and every head of a family resident therein, shall report at the nearest police station (1) the illness of any person in such house, or (2) the death of any person in such house, immediately such illness is apparent or death occurs.

3. Any medical practitioner who (1) attends a case of illness in a house in which there is present a person who has come from a place where plague is prevalent, or who (2) attends in any house a case in which he has reason to believe the sick person to be infected with plague, shall forthwith report such illness to the nearest police station.

4. On receiving a report under rules 1, 2, or 3 the officer in charge of the police station shall immediately report the matter to the Inspector of Police, the Cantonment Magistrate, and Health Officer of the Cantonment.

*Explanation.*—The Staff Surgeon shall be the Health Officer unless another Medical Officer is appointed by the Local Government to be Health Officer.

5. Compulsory corpse inspection by Medical Officer should not be resorted to, but during an outbreak of plague all deaths, the cause of which cannot be determined not to be plague should be treated as deaths from plague. It will be open to any persons to voluntarily submit a dead body to the examination of a medical officer if they wish to avoid the death from being treated as due to plague.

6. The owner and occupier of a house, and the head of any family resident therein, shall comply with any direction that may be issued by the Health Officer with regard to, the disinfection and cleaning of a house, the disinfection or destruction of clothing and personal effects, the disposal of any corpse, the improvement of the sanitary condition of the premises and other similar matters.

7. The Health Officer shall, if he considers it necessary, himself take measures for the disinfection of a house and for the other matters referred to in the preceding rule. Should the Health Officer think it necessary and practicable to burn or otherwise destroy any non-masonry and inflammable structure, he will report the case to the Cantonment Magistrate and act on his orders. The Cantonment Magistrate may order the burning or destruction of any hut or other temporary structure, if disinfection cannot be satisfactorily effected.

8. The Health Officer may, with the previous sanction of the Local Government, require the owner or occupier of any house to permit him to enter his premises and examine any person whom such Health Officer has reason to believe to be infected with plague. If the person in question be a female, the examination shall, if she or her relatives so desire, be made through a female doctor, female Hospital Assistant, or other female agency.

9. If, on examination of a sick person in a house or other place within the limits of a Cantonment, the Health Officer suspects (1) that such person is infected with plague, or (2) considers that he is actually suffering from plague, the Health Officer may, if authorized on that behalf by the Local Government, arrange for the removal of such person (1) to an observation shed, or (2) to a temporary hospital established for the purpose, and for his detention, dieting, and medical treatment therein, or (3) may arrange for the treatment of the case in the infected premises by isolation from the remainder of the occupiers or by the removal of the healthy from the infected premises.

10. If in any case a person removed to a temporary hospital is accompanied by a companion or attendant, the Health Officer shall require the companion or attendant to live in the immediate neighbourhood of the temporary hospital in a segregation hut or tent provided for the purpose, and to remain in such place until he receives permission from the Health Officer to depart.

11. If a person is attacked with plague while so segregated, the Health Officer shall remove such person to the temporary hospital, and shall keep under observation in a

segregation hut, tent, or suitable structure, for a period of 10 days from the date of such removal, any companion or attendant who has been with the person attacked.

12. Upon the death of a sick person from plague the Health Officer, if authorized on that behalf by the Local Government, may for 6 days detain under observation all persons who have been in attendance, in segregation huts, tents, or suitable structures established for the purpose in the neighbourhood.

13. If plague has become prevalent in a portion of a Cantonment, the Health Officer may, with the previous sanction of the Local Government, direct the inhabitants of any street, *moholla*, or other locality to evacuate their houses, to remove to a temporary settlement established, as a place of segregation, at a distance from the infected quarter, and to remain in such settlement for so long as he may consider necessary. After evacuation, the Health Officer shall arrange for the thorough disinfection and cleansing of the empty premises, and shall not permit the inhabitants to return until the premises are considered free from infection.

14. A person dealt with under the foregoing rules shall comply with any directions that may be given to him by the Health Officer with regard to his removal to, and his detention and treatment in, an observation shed, temporary hospital, or place of segregation, and with respect to the disinfecting or burning of his clothing and personal effects, the disposal of any corpse, or with respect to any other similar matter: he shall not depart from any such place of detention without the permission of the Health Officer.

15. All Police Officers shall give to the Health Officer such assistance as may be considered necessary in carrying out these rules.

16. Any conveyance, public or private, used for the carriage of a person infected with plague, or suspected of being infected, shall be thoroughly disinfected and exposed to air and sunlight for three days previous to being again used, articles of furniture belonging to it likely to retain infection being destroyed.

17. A *chhapar* hut, after occupation by a person suffering from plague, should be burnt, and this should also be done to the *charpai* upon which the person is carried to, or which he uses in the hut.

18. The foregoing rules shall come into force at once, and shall remain in operation until such time as they shall be withdrawn by notification by the Agent to the Governor General.

19. Notifications No. 4342, dated the 4th May 1897, No. 5455, dated the 9th June 1897, No. 2088, dated the 9th March 1901, and No. 4614, dated the 6th May 1901, are hereby cancelled.

#### ANNEXURE.

##### MEMORANDUM OF INSTRUCTIONS FOR THE GUIDANCE OF OFFICIALS.

1. *Surveillance.*—The actual work of surveillance can best be performed by the people themselves, and the inhabitants of towns should be encouraged and assisted to keep an organized surveillance over persons arriving from infected areas.

2. *House visitation, &c.*—The measure prescribed by rule 8 attacks the domestic privacy of the people, and should be employed only when it is clear that it will be effectual in saving them from disaster. It will be justifiable only when plague exists in small and well defined areas.

3. *Removal of patients.*—This should be compulsory only in places and under circumstances where it can be carried out so completely as to render it an effectual precaution and in the case of persons who are left without any one to look after them or who have no home. But every effort should be made to induce patients to go to hospitals and to lessen the aversion to hospitals by encouraging the establishment of private and caste hospitals, by locating hospitals near infected quarters, by limiting the size of hospitals, so that patients may receive more individual attention, and accommodation may be more readily made available for their immediate families and friends, by arranging for the provision of an adequate number of medical attendants and nurses, and of ample and comfortable accommodation for patients, and by permitting at least two friends to be in attendance on each patient, so that the patient may never be left alone. In the case of moribund cases, it would not be humane to forcibly remove from his house a person who has not a fair chance of recovery, and this should never be done except at the express wish of the friends of the patient.

4. *Evacuation of infected areas.*—Climatic conditions are a most important factor in determining whether evacuation can be carried out or not, and before the people are subjected to the discomforts of evacuation during the rainy season, there should be no doubt that the hardships inflicted on them will in all probability yield a balance of advantage.

5. *Disinfection of houses &c.*—Disinfection of houses after evacuation shall at first be limited to removing tiles in order to admit sun and air, no disinfecting or sanitary

employees are to enter the houses until 3 or 4 weeks have elapsed. After this they can be prepared for occupation by scattering kerosine oil emulsion in the rooms in order to destroy fleas. This emulsion is prepared as follows :—Three parts of sunlight soap are dissolved in 15 parts of water, kerosine oil is added to the soap solution gradually up to 100 parts. The oil and soap water should be mixed together shaking or stirring all the while.

(a) Clothing, rags, and straw found in the houses should be removed into the open air by means of sticks to avoid handling and sanitary coolies must be protected from fleas by boots and putties. Useless rags, etc., must be burnt.

(b) If the regular destruction of rats is not being carried out before the advent of plague, this shall be done immediately plague threatens a Cantonment. A gang of men will be engaged to bait and place rat traps every evening collecting them next morning. Similarly others will place baits and collect those not removed next morning. Poison can be obtained from the Depot Disinfecting Officer, Jullunder, Punjab. The rat campaign should be assiduously carried out in infected quarters and if possible in or along side evacuated houses.

By order,

P. B. WARBURTON,

First Assistant to the Agent to the Governor General  
in Central India.

NOTE.—The notice in Form A should also be served on the 'owner' of the place, if he is known, (and the date in the Notification under section 5 (a) of the Act shall always be as therein required not earlier than 4, and not later than 6 months, from the date of the publication of the Notification.

II. The notice to the person in possession of the land or the thing in which the treasure was found, required to be served on such person under section 5, clause (b), shall be in the same terms as the above, and shall in addition contain the following words at the end :—

#### FORM B.

And whereas the place, where the said treasure was found by the said (name of finder) is believed to have been on the date of the said finding in your possession, your attendance at the enquiry is especially required, failing which your right to a share of the treasure will be forfeited as prescribed in section 6 of the Act.

(Signature of Deputy Commissioner).

Date

III. The above Notification and notice shall be in English and Vernacular and copies of Form A shall be posted up at the District Kutchery, at the Tahsil, in the village where the find took place, at or near the spot where the treasure was found, if the Deputy Commissioner approve, and in such other places as the Deputy Commissioner may think proper.

IV. Appeals to the Commissioner from the order of the Deputy Commissioner under section 9 of the Act, shall be dealt with under the orders for the time being in force regarding administrative appeals of the Revenue Department.

V. The special notice prescribed by section 5 (b) shall, so far as is consistent with the Act under which these rules are framed, be served in the manner provided by the British Baluchistan Civil Justice Regulation, 1896, for the service of a summons.

VI. Where two or more persons are in possession of the place in which the treasure appears to have been found, the service shall, subject to the limitation in rule V above, conform to the rules for the service of a summons upon two or more defendants contained in the British Baluchistan Civil Justice Regulation, 1896.

VII. When the treasure found consists of coins, not of British mintage, or ancient utensils, sculptures or other articles of any antiquarian interest whatever, the Deputy Commissioner before acquisition shall report the find to the Superintendent, Archaeological Survey, Frontier Circle at Peshawar, or such other person as may be nominated for the purpose by the Local Government from time to time sending specimens if possible, of the find for examination and for report to the Hon'ble the Chief Commissioner.

VIII. In the case of coins the Superintendent, Archaeological Survey, Frontier Circle, or such other person as may be appointed for the purpose shall submit his report to the Hon'ble the Chief Commissioner in the forms annexed along with his recommendations as to their acquisition on behalf of Government.

IX. The Hon'ble the Chief Commissioner after taking such recommendation into consideration, and after consulting the Revenue Commissioner in Baluchistan, may order the acquisition on behalf of Government of all such coins or of such number of them as in the opinion of the Hon'ble the Chief Commissioner may be necessary for distribution and for sale.

X. When only a single specimen of treasure is found it should be sent to the Quetta Museum. ### GAZETTE OF INDIA.

#### NOTICE.

The 18th March 1909

From the 3rd April next till further notice, Parts I, IV, V and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla. After the 27th March all notifications and other matter intended for publication in the *Gazette* should be addressed to the Officiating Publisher at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901 :—

“It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette*, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 6th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*.”

J. P. HEWETT,

Secretary to the Government of India.

### NOTICES.

All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, 2, Bankshall Street, Calcutta.

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not " designs " within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash, and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable at *Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's Office are now on sale to the public at one anna and eight annas a copy, respectively. Consolidated indexes for 1905, 1906, 1907 and 1908, entitled " Inventions and Designs," are also on sale, price one rupee each. They contain a chronological list, subject-matter and name indexes of exclusive privileges for inventions, which have been obtained or applied for in the year, together with lists of designs applications.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or if the 10th day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. A new and revised edition is now on sale. Royal 8vo volumes, paper cover, price one rupee or 1s. 6d. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Office, 2, Bankshall Street, Calcutta.

A copy of the Bill, which it is proposed to introduce to amend the law relating to the protection of Inventions and Designs, together with a statement of objects and reasons and notes on clauses, has been placed in the visitors' room of the Patents Office for inspection. Copies, price one rupee, may be obtained on application to the Superintendent, Patents Office, 2, Bankshall Street, Calcutta.

H. G. GRAVES,  
Secretary under the Inventions and  
Designs Act V of 1888.

**THE HON'BLE THE RESIDENT IN MYSORE.****NOTIFICATION.**

Bangalore, the 10th September 1909.

**No. 62.**—Under Section 18 (1) (b) of the Income Tax Act, 1886 (II of 1886) as extended to the Civil and Military Station of Bangalore, and in the exercise of the powers delegated to him by the Governor General in Council under Government of India, Finance and Commerce Department, Notification No. 593, dated the 5th February 1886, the Resident in Mysore is pleased to make the following rule in addition to the rules issued under this office Notification No. 2297—80-6, dated the 13th August 1886:—

The Collector is authorised to publish a general notice in Form J appended herewith inviting every person chargeable under Part IV to deliver a return of income under section 18, sub-section (1), clause (b).

Copies of the general notice shall also be served individually on every person whose income is estimated not to be below Rs. 1,000.

By order,

F. J. Richards,

for First Assistant Resident.

(2) If the person or firm making the return has several places of residence or business, they should all be mentioned in column 2, the principal place of residence or business being specified.

(3) Column 3 should show all sources and amounts of income, specifying separately those chargeable under Parts I, II, III and IV of Schedule II of the Act, and the number of shares in such income and the names of sharers. In this column should be entered in detail every separate source of income accruing and arising in British India. Salaries, pensions, annuities and gratuities are chargeable under Part I, interest on Government and other securities under Part III, and other sources of income, including the rental value of buildings occupied by owners calculated under section 24 of the Act, are chargeable under Part IV of Schedule II of the Act.

(4) In column 4 should be entered the gross income accruing and arising during the year ending on the day on which the person's accounts have been last made up or if the person's accounts have not been made up within the year ending on the 31st day of March in the year immediately preceding that for which the assessment is to be made, then during the year ending on the 31st day of March. In this column, the period during which the income from each source has been derived should be specified.

(5) Against the gross receipts, no deductions should be made on account of disbursements or expenses not wholly and exclusively incurred in respect of the profits returned; nor on account of any public or local rates, cesses or taxes, nor on account of the maintenance of the assessee himself or his family or domestic establishment.

(6) A deduction for the purpose of securing a deferred annuity or a provision for wife or children or a payment to a Life Insurance Company should not be excluded from column 4, but should be included in the column headed "Total deductions" and supported in the insurances case by a receipt for such deduction or payment.

#### Examples of Deductions from the gross receipts which are admissible.

##### (a) In the case of Trades or Professions.

(1) Sums actually expended in the repairs of implements, utensils or articles used solely for the purpose of the profession or trade.

(2) Sums expended in insuring or keeping insured the buildings, machinery and plant, implements and stock used for the purpose of the profession or trade. The deduction is confined to the premia (including subscriptions, etc.) paid during the year upon the income accruing in which the tax is assessed.

(3) The amount of rent paid for any premises exclusively used for such profession or trade.

*N. B.*—Where they are not exclusively used for such profession or trade, only a *fair* proportion of such rent is admissible for deduction.

(4) The amount actually expended on repairs and renewals of such premises, if the repairs and renewals are at the cost of the assessee. The assessee must be prepared to prove the amount spent by means of vouchers.

(5) The amount expended as salaries of persons employed solely and exclusively in the profession or trade. When a firm has transactions both in and out of India and realizes profit in both by means of an establishment maintained in India in common for both, only a proportionate deduction is allowed (the exact proportion of which will be determined by the assessing officer in each case).

(6) The amount of any loss in trade or of the stock in trade actually written off during the year. In cases where there is loss in one trade or profession and profit in another, the loss may be set off against the profits, and any excess loss deducted. So also loss under any one part of the schedule may be set off against income under any other part.

(7) The amount of any bad debts for the first time ascertained and written off the accounts as such during the year. (The debts should be written off in the personal ledger of each debtor by adjustment to both credit and debit sides.)

(8) Interest paid on borrowed capital. The assessee may be required to satisfy the assessing officer that only capital actually employed in his trade is taken into account in this connection.

*N. B.*—When the whole capital is not exclusively employed in the trade, only a *fair* proportion of the interest paid shall be deducted.

(9) Such miscellaneous and contingent charges as Commission or Discount—

Postage, Telegraphic, Law, Advertising and Stationery charges.

Shipping, Freight, Railway and other Transit charges.

*N. B.*—The nature of the charge and the amount incurred under each should be distinctly demonstrable.

(10) Payments actually made to Insurance Companies for the purpose of securing a deferred annuity or a provision for wife or children or a payment to a Life Insurance Company but not those set aside to form an Insurance Fund.

(11) Charges incurred in providing tiffin for assistants, clerks and constituents.

(12) Amount actually expended from the profits of the year on ordinary maintenance, repair of machinery and plant.

(13) Such amount as may be actually set apart from the profits of the year for depreciation up to a limit of 10 per cent. on the value of the machinery and plant.

*N. B.*—Care should be taken to see that the deduction allowed represents the repairs and depreciation of only one year, *i. e.*, the year the income of which is assessed.

(b) In cases of houses owned and let by the owner for rent.

(1) Sums expended in insuring or keeping insured such houses, the deduction being confined only to the premia (including subscriptions, etc.) paid during the year upon the income accruing in which the tax is assessed.

(2) Actual expenditure during the year on repairs and renewal of houses, if such repairs are at the cost of the assessee, but not depreciation in the value of such buildings.

(3) Sums expended in collecting the rent not exceeding 6 per cent. of the gross rental. The deduction applies only to direct payments.

(4) Any interest payable to a mortgagee not in possession, whether the interest has or has not been actually paid during the year.

(5) Any rent paid on account of such houses.

(c) In cases of houses occupied by the owner for dwelling purposes under section 24 of Act II of 1886.

(1) When buildings are occupied by their owners as dwelling houses, five-sixths of the estimated annual rent thereof shall be added to the net income under Part IV and the sum total assessed, provided that, where five-sixths of the annual rental value exceeds 10 per cent. of the assessee's income from all sources whether taxable or not, the excess shall be deducted from the five-sixths of the rental value and the remainder added to the net income under Part IV.

(2) Houses reserved for the use of the owner, but not occupied by him during the period which serves as the basis of the assessment.

*N. B.*—The term *renewal* as used in the return refers only to such works as are intended to put the building into the same state as it was in when it was originally constructed, while any additional accommodation provided or any material alteration to the plan of the building shall be treated as an addition.

When a portion of the house is occupied by the owner and the remainder let out on hire, the portions should be treated as if they were separate houses and deductions allowed accordingly, *i. e.*, either a sixth of the annual rent value or actual expenditure on repairs and renewals, as the case may be.

#### EXAMPLES OF DEDUCTIONS FROM THE GROSS RECEIPTS WHICH ARE NOT ADMISSIBLE.

- (1) Amounts expended by vakils on the purchase of law books and stationery.
- (2) Amounts set apart to form a Renewal Fund in cases where allowance is made for repairs under the rules.
- (3) Amount set apart as a Reserve Fund out of profit to meet anticipated or contingent losses.
- (4) Amount spent in or set apart for repayment of debts.
- (5) Interest on capital put in by the partners of the firm.
- (6) Partners' allowances.
- (7) Bad or doubtful debts not written off.
- (8) Any set off out of the profits of the year on account of ascertained losses of previous years.
- (9) Public or local rates, cesses or taxes.
- (10) Cost of maintenance of the assessee himself or his family or domestics.
- (11) Bonuses paid to domestic servants.
- (12) Christmas presents to domestic servants.
- (13) Subscription to races, charities and schools, etc.
- (14) Tiffin expenses of partners of a firm when these can be separately ascertained.
- (15) Interest not received in cash, a bond being taken for the same.
- (16) Deductions for depreciation in the value of buildings.
- (17) Payments made to form an Insurance Fund against future losses.
- (18) Outlay on the purchase of machinery, plant, etc.

ORDERS BY THE HONOURABLE THE CHIEF COMMISSIONER  
OF AJMER-MERWARA.

## NOTIFICATION.

Abu, the 15th September 1909.

No. 320.—In exercise of the authority conferred on him by section 9 of the Ajmer Forest Regulation (VI of 1874), the Honourable the Chief Commissioner is pleased to make the following rules for regulating the supply of wood from State Forests to right-holders for household requirements and agricultural implements :—

## Rules regulating the supply of wood to right-holders.

(1) Subject to the condition that serious damage is not caused to the Forests, every right-holder is entitled to 15 cubic feet of timber annually for *bond fide* household and agricultural purposes for every ten bighas of cultivation or part thereof standing in his name. If the timber is not taken annually, an accumulated supply up to five years may be claimed. Applications should be submitted in the prescribed form\* at least a fortnight before the timber is required at any time between the 1st of October and the 31st of May, to the Forester and Ranger in charge of the Forest from which the wood is to be taken, and all such applications will have a prior claim to public sales of wood.

Applications for timber not exceeding Rs250 in value will be disposed of by the Divisional Forest Officer : others will be forwarded to the Commissioner for sanction.

(2) When an application has been sanctioned a permit specifying the kind and quantity of timber granted, and the name or number of the coupe from which it is to be cut will be issued by the Range Officer.

Removals of timber should be entered as they take place on the back of the permit by the Forest guard in charge of the beat, who will be responsible that the timber is properly cut and that all the available wood from the felled trees is utilised.

(3) In the Ajmer Working Circle, where the Forest area is not large enough to meet the full demand of the right-holders, and the growth is too poor to yield any large quantity of timber fit for building or agricultural purposes, the free grant will be limited for the period entered in the revised Working Plan to the following cases :—

(a) Timber for the construction of or repairs to a village hatai, temple, mosque or other places of general interest.

(b) Fuel when required for public festivals.

(c) Thorns for fencing to protect the crops from the depredations of wild animals, where such animals have become numerous and a source of injury to the crops.

(d) Timber for the rebuilding of any house destroyed by fire or any other calamity.

(4) A register of free grants in form 12, showing the names of recipients, the quantity of timber granted and value will be kept in the Divisional Forest Office and in the Range Offices.

(5) Any right-holder selling, bartering, or misusing the timber granted to him under these rules, or infringing the rules in any other way shall be liable on conviction before a Magistrate to a fine which may extend to Rs20 in cases where the value of the timber supplied does not exceed Rs5 and to Rs50 in other cases.

By order,

W. H. J. WILKINSON,  
First Assistant to the Agent to the  
Governor-General, Rajputana, and  
Chief Commissioner, Ajmer-Merwara.

## APPENDIX A.

## Form of application for free grant of timber.

- (1) Name of right-holder.
- (2) Name of father.
- (3) Caste.
- (4) Residence.

\* Appendix I.

- (5) Amount of land standing in his name.
- (6) Details of building timber required.
- (7) Details of agricultural timber required.

Signature of applicant.

## DEPARTMENT OF AGRICULTURE IN INDIA.

Simla, the 16th September 1909.

The following Prospectus of Short Courses in Practical Agriculture and its allied subjects to be given as a temporary measure at the Pusa Agricultural College and Central Research Institute is published for general information :—

### SHORT COURSES IN PRACTICAL AGRICULTURE AND IN OTHER ALLIED PRACTICAL SUBJECTS AT PUSA.

The function of the Pusa College in the general scheme of Agricultural Education in India has been defined as that of a Higher Teaching Institution and Research Station for post-graduate agricultural students and for advanced science students particularly from Indian Universities.

At the present stage of development of the Provincial Agricultural Colleges it also seems necessary for the Pusa Institute and Estate to assist Provinces and Native States by instituting short courses of instruction in special branches of agriculture or in simple industries connected with agriculture. There are new facilities at Pusa for thorough instruction in the subjects referred to. Such instruction cannot well be given in other parts of India for at least some years ; therefore I hope that a hearty response will be given to the proposals which I note below. The short courses which I propose are broadly defined in a Syllabus for each subject which is appended hereto. I attach the greatest importance to the value of these courses. There is an undoubted demand for them, but it is impossible to get at present elsewhere in India such simple technical instruction except as a part of much longer courses. The instruction will be essentially practical in character and will require no scientific training and not even a knowledge of English. It would, however, be an advantage if the men had all a fair general education.

Men who have not the instincts of the profession which they are following or propose to follow, will not be accepted. I desire to admit in particular to Pusa for these courses men who are *bonâ-fide* agriculturists or malis by caste.

The courses will be suitable for men of the subordinate staff of all the Agricultural Departments, and will be open to private individuals who are engaged or propose to engage in the special branches of agriculture and allied subjects dealt with. It is not possible at first to take more than nine students in each subject at one time, but several subjects can be simultaneously taken up by the same students.

A recommendation by a Director of Agriculture or any other authorized authority will be accepted in regard to any application for admission, if the applicant is certified to be of good character and in robust health.

Free quarters of a very simple but sufficient character will be provided.

Students will have to pay all travelling and personal expenses. The latter at Pusa need not exceed ₹15 per mensem and might easily be less.

No books will be required.

It is proposed to start classes as soon as possible ; so applications, should be addressed to the Director and Principal, Agricultural Research Institute, Pusa, Bengal, at as early a date as possible.

### SYLLABUS OF SHORT COURSES.

#### Section of Agriculture.

- (1) Cattle Breeding and Management.—The course will occupy three months. It will deal with the general management of breeding herds and of milch

and draught cattle and will include simple instruction in the recognition, treatment and prevention of the more common diseases. The Second Imperial Entomologist will deal with the principal insect pests of cattle, the part which they play as disease carriers and methods of treatment. Courses will commence in October and January.

- (2) Poultry Management.—This will be a three months' course and will include instruction from the Second Imperial Entomologist in the treatment of the insect pests of poultry. Courses will commence in October and January.
- (3) Dairying.—This is intended to be a complete course extending over six months, in up-to-date dairying.
- (4) Tillage Implements and Agricultural Machinery.—Training will be given in the principles of construction and in the handling of the common Indian and European tillage implements and agricultural machinery, including ploughs, drills, cultivators, waterlifts, steam engine, oil engine, etc. Arrangements have been made for a complete collection at Pusa of all useful indigenous agricultural machinery, implements and tools. The course will occupy three months and will commence in October or January.

#### Section of Economic Botany.

- (5) Fruit growing.—The course will be an eight months' one and will deal with :—
  - (a) The general management of a fruit garden, including choice of site, laying out, draining and planting, the choice of varieties, irrigation, cultivation and manuring.
  - (b) Special processes such as budding, grafting, layering, pruning, and root pruning, weathering.
  - (c) Disposal of fruit including picking, grading, packing and marketing.
  - (d) Evaporating, drying and preserving.

The course will begin each year on the 1st of October and will last till the end of May.

#### Section of Entomology.

- (6) Eri-silk as a Cottage Industry.—The course will occupy about three months and will commence in October and January. It includes rearing and spinning. If dyeing and weaving is to be learnt, three months more would be required.
- (7) Lac Cultivation as an adjunct to ordinary agriculture.—The training can be given only from May 15th to June 15th or September 20th to October 20th. These dates vary a little according to the season as lac does not always come out regularly. The training includes pruning and handling of trees, inoculation of lac, harvesting, scraping and washing. It covers the whole industry to the production of seed lac and is exclusive of the production of shellac.
- (8) Mulberry Silk Culture.—The course would include rearing, selection of disease-free eggs, reeling and the utilization of waste cocoons. Instruction would also be given in the varieties of silk worm. Silk twisting (spinning) and dyeing with the simpler forms of weaving could be taught. The course would occupy six months if it ended at the reeling, nine months if it included twisting, dyeing and weaving of simpler fabrics. The training would cover only the ordinary existing methods, not improved methods of reeling or the more complex forms of weaving. The course will commence on June 15th each year.

J. MOLLISON,

Inspector General of Agriculture in India.

### GAZETTE OF INDIA.

#### NOTICE.

The 18th March 1909.

From the 3rd April next till further notice, Parts I, IV, V and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla. After the 27th March all notifications and other matter intended for publication in the *Gazette* should be addressed to the Officiating Publisher at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901 :—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette*, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,

Secretary to the Government of India.
